**Tip of the week: Stroke the ball, Don't hit it.**

Often the difference between a strong, powerful swing and a misguided hack is the tendency to hit, rather than stroke, the ball. The difference can be seen when examining a short putt, when it is easy to stroke the ball. Hitting is not an option for a short putt, which makes it the easiest shot in golf. No desire to hit the ball allows a stroking, swinging motion. Perfect this technique for short-distance shots and you will find increasing accuracy and distance with your long shots as well.
